Some states require additional fees (e.g., recycling/e-waste) — these will appear at checkout with a note about what the fee is.

While they take up a lot of volume in the box, they can be dissolved in water to reduce their size to almost zero, and can also be composted either dry if you have moist compost or after dissolving if you have drier compost.

Some Items have been tested by the manufacturer, or in the case of our open box items, our team, prior to packaging and shipping them. Grinders may have coffee grounds or coffee ground residue, and espresso machines may have a small amount of water or ground coffee.
